

Oath/Pledge

Sri Lanka is our esteemed motherland, cherished by both you and me. At present, the spread of dangerous drugs has become a national disaster that undermines the expectations for our nation's future. Completely rescuing our society from this menace stands as the greatest challenge before us. We acknowledge that overcoming this challenge is an unwavering responsibility that we share as a society.

This dangerous drug menace has deprived our society of economic stability, healthy living, family affection and bonds, as well as joy and entertainment. Moreover, it has become a source for organized crimes.

Therefore, we; solemnly affirm/swear to completely reject the manufacture, distribution, sale, promotion and espousing of dangerous drugs, to act against them and to extend our assistance in bringing those responsible to justice.

Similarly, we affirm/swear to support the drug dependent persons in overcoming their addiction and also to assist them in reintegrating into a healthy and dignified social life.

We affirm/swear that this oath, taken at the inaugural ceremony of the '*Ratama Ekata*' National Mission on the 30th day of October, 2025, at the Sugathadasa Stadium, Colombo, shall remain in force as a solemn national responsibility, one that we shall uphold unwaveringly until the dangerous drug menace is completely eradicated from our motherland.
